Our Customer Promise

We Promise

To consistently strive in delivering a fast & effective service, which our customers can trust.

To listen to our customers, ensuring their needs are met to the highest of standards.

To continually monitor the Electronic Industry in order to provide our customers with detailed up to date information.

To consistently give our customers' products a Full Service, where all repairs undergo a vigorous cleaning process with internal parts inspection & relevant replacement.*

*Guarantee excludes issues arising as a result of normal wear and tear, improper care or accidental damage, if the void image is showing the warranty will be invalid.

Our Services

WWW.MAGGIELECTRONICS.CO.UK

ABOUT US

Initially founded in 1992 as Maggi & Maggi UK, a token and change distributor, Maggi Electronics has transformed into one of the largest, most trusted service and support centres within the UK. Today a family company based in the North West of England, employing over fifty members of staff throughout a number of specialised departments, we are fully qualified and equipped to assist with all your electronic needs.

Our twenty-plus successful years experience of supporting field based activity, matched with our next day advance replacement service, in-house delivery service and our highly successful next day carrier partnership; means we are perfectly placed to service the electronic industry within this dominating digital revolution.

We are proud to be the only electronic service centre that gives you a quality assured guarantee, matched with our full service promise! New products 1 year warranty and repaired products 100 days warranty as standard.*

Quality Assured

With a combined two hundred years of technical experience in the repair, service and supply of electronic products, you can be rest assured knowing that only quality assured products will be delivered from our select range of refurbished products, which come with a 100-day warranty, and our range of new products with a full 1-year warranty as standard.

This covers the structural integrity and components against faulty or defective manufacture,* sourced from our highly respected selection of manufacturers, who share our commitment to product quality, consistency, and value for money, giving you complete peace of mind.

Full Service

Our full service includes a vigorous sonic bath, internal segment cleanse, parts inspection and relevant replacement.

New Products

We are passionate about meeting our customer needs, where we consistently welcome the repair and service of new products. Whether it be a coffee machine, smart phone, tablet or photo booth...

The Sky's the Limit, just ask and see what we can do!

*Guarantee excludes issues arising as a result of normal wear and tear, improper care or accidental damage, if the void image is showing the warranty will be invalid.

Printed Circuit Boards

PCBs are available in various shapes and sizes, with thousands of applications used in virtually all electronic devices, such as domestic machines, personal computers and retail products.

Our services include the repair and supply of circuit boards from main processor units, personal computers, motherboards and light boards.

Power Supply Units

PSUs are found in many applications, where they provide voltage to power all types of electronic devices. Our services include the repair and supply of industrial, linear and switch mode PSUs throughout the whole electronic market.

Personal Computers

Widely known as PCs, they are found in an increasing number of applications across many industries, these include retail, trade, education and transportation. Our services include the repair and supply of a vast range of products; these currently incorporate the original equipment manufacturer (OEM) of personal and industrial computers.

Monitors & Touch Screens

Our technical gurus can repair a range of monitors, whilst working to strict schedules. With monitors being used in a variety of applications, from kiosks and coffee machines to gaming and parking meters. Our services include the repair and supply of products, from Kortek, Samsung, Elo and Tovis.

Coin Validators

Coin validators are an accepted part of daily life, used in many applications in the amusement, gaming, vending, transportation and the retail industry, which can be found in a range of products. These include ticket machines to retail kiosks, self-service checkouts, photo booths, confectionery and coffee machines. Our services detail the repair and programming of a vast range of products, which include the SR5i, Cash Flow 9500 and the V2 Eagle.

Coin Dispensers

Widely known as Hoppers, they are an efficient secure and space saving way of dispensing coins, available in a wide variety of shapes and sizes, they have multiple capacities to suit your needs. They can be found in retail kiosks, self-service checkouts, gaming and vending machines. Our services incorporate the repair and supply of a number of products, which include the Compact Hopper, the Smart Hopper and Universal Hopper.

Note Validators

Note Validators are becoming a vital segment in many applications. Our services incorporate the repair, supply, recalibration and the change of currencies from a wide range of note validators, which include the NV200 and Ardac Elite. They can be found in change machines, self-service checkouts, games machines and car parking meters.

NV200

Ardac Elite

Ticket Printers

Barcode ticket printers are now used increasingly more across many industries. They can be found in parking meters and fare collection handling machines, used within the railway and transportation industry. Our services incorporate the repair and supply of a number of products, which include the Ithaca 950 and Smart Ticket.

Did you know...

Thanks to our vast experience of supporting field based activity, including our next day advance replacement service, alongside our in-house delivery service and our highly successful next day carrier partnership, we are fully prepared to meet your delivery requirements whether your needs are large or small.

We currently deliver to Scotland, The North East, Yorkshire, Nottinghamshire, Warwickshire, Staffordshire, Cheshire, Lancashire and Worcestershire; in addition to our next day carrier service we can arrange collection and delivery for all your electronic needs.

Customer demand has enabled us to create new routes, please visit our website or contact us for an up to date locations list or to be added to our weekly delivery drops.

We deliver!

Electronic Markets

We at Maggi Electronics have specialised within the gaming and amusement industry for twenty-plus years and due to the demand within this dominating digital age, we have and are continuing to evolve into many markets.

Gaming & Amusement

Within the gaming and amusement industry, a number of applications can be repaired, serviced, supplied, reprogrammed and recalibrated to meet your specific requirements. Our product range are included in arcade equipment, single sites, betting shops, casinos and inland arcades.

Retail & Kiosk

An industry increasing consistently with strong demand, has led to the need for speed plus repair competence and quality products within this market. These include self-service checkouts, change machines, cash machines, tablets, smart phones, laptops, personal computers and towers.

Transportation

Whether it be in the form of a parking meter, car wash, ticket printer or fare collection handling machine, these can be found throughout daily life.

PARTNERSHIPS

Here at Maggi Electronics we have continued to expand through customer demand, which has led to the formation of our sister companies, Recolo Assemblies and Token Supply.
